

## **FISHERBRAND™ STERILE POLYSTYRENE DISPOSABLE SEROLOGICAL PIPETS WITH MAGNIFIER STRIPE - 25 ML**

### **Fisherbrand™ Sterile Polystyrene Disposable Serological Pipets with Magnifier Stripe**

The high-contrast black markings make the volumes easier to read, for improved optical clarity. Manufactured with optically clear polystyrene for accurate measurement. Fisherbrand™ Sterile Polystyrene Disposable Serological Pipets with Magnifier Stripe reduce reading errors and are designed for tissue culture work.

- Color coded magnifier stripe runs lengthwise along pipet, making meniscus obvious at arm's length — reducing reading errors
- Sterile and nonwetable pipets
- Offer a tolerance of  $\pm 2\%$  at full volume and have plug-in mouth end
- 1, 2, 5, 10, 25, and 50mL pipets have ascending and descending graduations
- Improved tip design on 25 and 50mL pipets increases the effect of surface tension to minimize dripping
- Color coding on each pipet and on inner bags for multipack pipets make it easy to spot the size needed
- Each pipet lot is tested for sterility, accuracy and endotoxin level

**Cat. #:** Fisher Scientific 13-678-11

**Certifications/Compliance:** Non-pyrogenic, USP XXII, USP XXII Bacterial Endotoxins Test (85); DNase/RNase Free; BSE/TSE Free

**Sterility:** Sterile

**Graduations:** 0.2 mL

**Quantity:** 200/Cs., 25/Pk., 8 Packs/Cs.

**Packaging Type:** Individually Wrapped, paper-plastic wrap

**Volume (Metric):** 25 mL

**Disposable:** Single-use

**Material:** Polystyrene

**Graduated:** Yes

**Negative Graduations:** 10 mL

**Tolerance:**  $\pm 0.5$  mL

**Color:** Red

**Type:** Serological Pipet

**Disposable:** Single-use
