Pioneering GTPase and Oncogene Product Development since 2010

FALCON® 70 MM CELL STRAINER, WHITE, STERILE, INDIVIDUALLY PACKAGED, 50/CASE

Falcon® 70 µm cell strainer is a sterile, easy-to-use device for rapidly isolating primary cells to consistently obtain a uniform single-cell suspension from tissues. Applications include stem cells and primary cells. Individually packaged, 50/case

- •
- Strong nylon mesh with 70- micron pores for optimal performance in a variety of applications
 - Evenly spaced mesh pores providing consistent and reliable results
 - Conveniently accessible in individual packaging
 - Extended lip on strainer enables aseptic handling with forceps
- Molded color-coded polypropylene frame with tab enables easy handling and identification
 - Fits perfectly into 50 mL Falcon Conical Tube
 - Disposable, easy-to-use, inexpensive, maintains sample integrity
 - Sterilized by gamma irradiation, noncytotoxic

Product Number: Falcon™ 352350; Thermo Fisher 08-771-2

Mesh Material: Nylon **Disposable:** Single-use

Color: White

For Use With (Application): Designed for rapidly isolating primary cells to

consistently obtain a uniform single cell suspension from tissues **Includes:** Extended lip on strainer, polypropylene frame with tab

Material: Polypropylene
Product Type: Cell Strainer

Sterility: Sterile

For Use With (Equipment): Conical Tubes, 50 mL Falcon

Mesh Size: 70 μm
