

## AAAS RABBIT PAB

**Cat.#:** S216951

**Product Name:** Anti-AAAS Rabbit Polyclonal Antibody

**Synonyms:** AAA; AAASb; GL003; ALADIN; ADRACALA; ADRACALIN

**UNIPROT ID:** Q9NRG9 (Gene Accession - BC000659 )

**Background:** The protein encoded by this gene is a member of the WD-repeat family of regulatory proteins and may be involved in normal development of the peripheral and central nervous system. The encoded protein is part of the nuclear pore complex and is anchored there by NDC1. Defects in this gene are a cause of achalasia-addisonianism-alacrima syndrome (AAAS), also called triple-A syndrome or Allgrove syndrome. Two transcript variants encoding different isoforms have been found for this gene.

**Immunogen:** Fusion protein of human AAAS

**Applications:** ELISA, IHC

**Recommended Dilutions:** IHC: 25-100; ELISA: 1000-2000

**Host Species:** Rabbit

**Clonality:** Rabbit Polyclonal

**Isotype:** Immunogen-specific rabbit IgG

**Purification:** Antigen affinity purification

**Species Reactivity:** Human, Mouse

**Constituents:** PBS (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

**Research Areas:** Neuroscience

**Storage & Shipping:** Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human breast cancer tissue using 216951(AAAS Antibody) at a dilution of 1/20(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human breast cancer tissue is first treated with the fusion protein and then with 216951(Anti-AAAS Antibody) at dilution 1/20.

The image on the left is immunohistochemistry of paraffin-embedded Human brain tissue using 216951(Anti-AAAS Antibody) at a dilution of 1/20.

In comparison with the IHC on the left, the same paraffin-embedded Human brain tissue is first treated with fusion protein and then with D221526(Anti-AAAS Antibody) at dilution 1/20.
