Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 220034(ADHFE1 Antibody) at a dilution of 1/25(Cytoplasm).

The image on the left is immunohistochemistry of paraffinembedded Human lung cancer tissue using 220034(Anti-ADHFE1 Antibody) at a dilution of 1/25.

In comparision with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the synthetic peptide and then with 220034(Anti-ADHFE1 Antibody) at dilution 1/25.

In comparision with the IHC on the left, the same paraffin-embedded Human lung cancer tissue is first treated with synthetic peptide and then with D260831(Anti-ADHFE1 Antibody) at dilution 1/25.
