

ALPI RABBIT PAB

Cat.#: S210849

Product Name: Anti-ALPI Rabbit Polyclonal Antibody

Synonyms: IAP

UNIPROT ID: P09923 (Gene Accession - BC132678)

Background: There are at least four distinct but related alkaline phosphatases: intestinal, placental, placental-like, and liver/bone/kidney (tissue non-specific). The intestinal alkaline phosphatase gene encodes a digestive brush-border enzyme. This enzyme is upregulated during small intestinal epithelial cell differentiation.

Immunogen: Fusion protein of human ALPI

Applications: ELISA, IHC

Recommended Dilutions: IHC: 25-100; ELISA: 2000-5000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human

Constituents: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

Research Areas: Cancer

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human colon cancer tissue using 210849(ALPI Antibody) at a dilution of 1/25(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human colon cancer tissue is first treated with the fusion protein and then with 210849(Anti-ALPI Antibody) at dilution 1/25.

The image on the left is immunohistochemistry of paraffin-embedded Human cervical cancer tissue using 210849(Anti-ALPI Antibody) at a dilution of 1/25.

In comparison with the IHC on the left, the same paraffin-embedded Human cervical cancer tissue is first treated with fusion protein and then with D121748(Anti-ALPI Antibody) at dilution 1/25.
