

CD55 RABBIT PAB

Cat.#: N225863

Product Name: Anti-CD55 Rabbit pAb

Synonyms: CD55; CR; DAF; Complement decay-accelerating factor; CD55

UNIPROT ID: P08174

Background: This protein recognizes C4b and C3b fragments that condense with cell-surface hydroxyl or amino groups when nascent C4b and C3b are locally generated during C4 and c3 activation. Interaction of daf with cell-associated C4b and C3b polypeptides interferes with their ability to catalyze the conversion of C2 and factor B to enzymatically active C2a and Bb and thereby prevents the formation of C4b2a and C3bBb, the amplification convertases of the complement cascade.
