CD59 RABBIT PAB

Cat.#: S220445

Product Name: Anti-CD59 Rabbit Polyclonal Antibody

Synonyms: 1F5; EJ16; EJ30; EL32; G344; MIN1; MIN2; MIN3; MIRL; HRF20; MACIF; MEM43; MIC11; MSK21; 16.3A5; HRF-20; MAC-IP; p18-20

UNIPROT ID: P13987 (Gene Accession - NP_000602)

Background: This gene encodes a cell surface glycoprotein that regulates complement-mediated cell lysis, and it is involved in lymphocyte signal transduction. This protein is a potent inhibitor of the complement membrane attack comple,x whereby it binds complement C8 and/or C9 during the assembly of this comple,x thereby inhibiting the incorporation of multiple copies of C9 into the comple,x which is necessary for osmolytic pore formation. This protein also plays a role in signal transduction pathways in the activation of T cells. Mutations in this gene cause CD59 deficiency, a disease resulting in hemolytic anemia and thrombosis, and which causes cerebral infarction.

Immunogen: Synthetic peptide of human CD59

Applications: ELISA, IHC

Recommended Dilutions: IHC: 25-100; ELISA: 1000-5000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

**Isotype:** Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human

Constituents: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

**Research Areas:** Signal Transduction, Cardiovascular, Immunology, Stem Cells

**Storage & Shipping:** Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human lung cancer tissue using 220445(CD59 Antibody) at a dilution of 1/30(Cytoplasm).
In comparision with the IHC on the left, the same paraffin-embedded Human lung cancer tissue is first treated with the synthetic peptide and then with 220445(Anti-CD59 Antibody) at dilution 1/30.
The image on the left is immunohistochemistry of paraffin-embedded Human liver cancer tissue using 220445(Anti-CD59 Antibody) at a dilution of 1/30.
In comparision with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with synthetic peptide and then with D261539(Anti-CD59 Antibody) at dilution 1/30.
