

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

CYSTATIN C (3C8) MOUSE MAB

Cat.#: N261311

Product Name: Anti-Cystatin C (3C8) Mouse Monoclonal Antibody Synonyms: CST3; Cystatin-C; Cystatin-3; Gamma-trace; Neuroendocrine basic polypeptide; Post-gamma-globulin **UNIPROT ID:** P01034 Background: Cystatin C is a 14 kDa member of the Cystatin superfamily of cysteine protease inhibitors. Most cell types secrete Cystatin C. Cystatin C inhibits cathepsins, and thereby may function as a tumor suppressor by inhibiting cathepsin mediated tumor cell invasion. In addition, this tumor suppressor function can also be attributed to Cystatin C's ability to antagonize TGF-β1 signaling. Immunogen: Purified recombinant protein expressed in E.coli. **Applications:** WB,ELISA **Recommended Dilutions:** WB: 1/500-1/1000 ELISA: 1/10000 Host Species: Mouse Clonality: Mouse Monoclonal **Clone ID:** 3C8-2E9-8C5 MW: Calculated MW: 16 kDa; Observed MW: 16 kDa Isotype: IgG1 Purification: Affinity Purified Species Reactivity: Human Conjugation: Unconjugated Modification: Unmodified **Constituents:** PBS (without Mg2+ and Ca2+), pH 7.3 containing 50% glycerol, 0.5% BSA and 0.02% sodium azide

Research Areas: Tags & Cell Markers

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

Western blot analysis of Cystatin C (3C8) in Hela, A549, HL-60, U2OS, C6 lysates using Cystatin C (3C8) antibody.
