

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

DAXX RABBIT MAB

Cat.#: N263297

Product Name: Anti-Daxx Rabbit Monoclonal Antibody

Synonyms: DAXX; BING2; DAP6; Death domain-associated protein 6; Daxx; hDaxx; ETS1-associated protein 1; EAP1; Fas death domain-associated protein

UNIPROT ID: Q9UER7

Background: Acts as an adapter protein in a MDM2-DAXX-USP7 complex by regulating the RING-finger E3 ligase MDM2 ubiquitination activity. Under non-stress condition, in association with the deubiquitinating USP7, prevents MDM2 self-ubiquitination and enhances the intrinsic E3 ligase activity of MDM2 towards TP53, thereby promoting TP53 ubiquitination and subsequent proteasomal degradation. Upon DNA damage, its association with MDM2 and USP7 is disrupted.

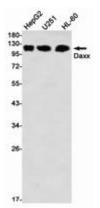

Immunogen: A synthetic peptide of human Daxx Applications: WB,ICC/IF Recommended Dilutions: WB: 1/500-1/1000 IF: 1/50-1/200 Host Species: Rabbit Clonality: Rabbit Monoclonal Clone ID: R07-7F4 MW: Calculated MW: 81 kDa; Observed MW: 110 kDa Isotype: IgG Purification: Affinity Purified Species Reactivity: Human Conjugation: Unconjugated Modification: Unmodified Constituents: PBS (without Mg2+ and Ca2+), pH 7.3 containing 50% glycerol, 0.5% BSA and 0.02% sodium azide Research Areas: Cell Biology

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

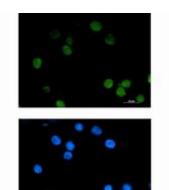

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

Western blot analysis of Daxx in HepG2, U251, HL-60 lysates using Daxx antibody.

Immunocytochemistry analysis of Daxx (green) in K562 using Daxx antibody,and DAPI(blue).
