

## **Product Description**

Pioneering GTPase and Oncogene Product Development since 2010

## **DGKI RABBIT PAB**

Cat.#: S220339

**Product Name:** Anti-DGKI Rabbit Polyclonal Antibody

Synonyms: DGK-IOTA

**UNIPROT ID:** O75912 (Gene Accession - NP\_004708)

**Background:** This gene is a member of the type IV diacylglycerol kinase subfamily. Diacylglycerol kinases regulate the intracellular concentration of diacylglycerol through its phosphorylation, producing phosphatidic acid. The specific role of the enzyme encoded by this gene is

undetermined, however, it may play a crucial role in the production of phosphatidic acid in the

retina or in recessive forms of retinal degeneration.

**Immunogen:** Synthetic peptide of human DGKI **Applications:** ELISA, IHC

Programme de la lactione de la constante de la

**Recommended Dilutions:** IHC: 25-100; ELISA: 5000-10000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

**Isotype:** Immunogen-specific rabbit IgG **Purification:** Antigen affinity purification

Species Reactivity: Human

Constituents: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40%

glycerol

Research Areas: Cell Biology

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

## **Product Description**

Pioneering GTPase and Oncogene Product Development since 2010

Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 220339(DGKI Antibody) at a dilution of 1/25(Cytoplasm or Nucleus).

In comparision with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the synthetic peptide and then with 220339(Anti-DGKI Antibody) at dilution 1/25.

The image on the left is immunohistochemistry of paraffinembedded Human ovarian cancer tissue using 220339(Anti-DGKI Antibody) at a dilution of 1/25.

In comparision with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with synthetic peptide and then with D261385(Anti-DGKI Antibody) at dilution 1/25.
