

ENPP3(DMC720) IGG1 CHIMERIC MAB

Cat.#: 28562

Product Name: Anti-ENPP3(DMC720) IgG1 Chimeric Monoclonal Antibody

Synonyms: CD203c; NPP3; PD-IBETA; PDNP3

Description: Anti-ENPP3 antibody(DMC720) IgG1 Chimeric Monoclonal Antibody

Background: The protein encoded by this gene belongs to a series of ectoenzymes that are involved in hydrolysis of extracellular nucleotides. These ectoenzymes possess ATPase and ATP pyrophosphatase activities and are type II transmembrane proteins. Expression of the related rat mRNA has been found in a subset of immature glial cells and in the alimentary tract. The corresponding rat protein has been detected in the pancreas, small intestine, colon, and liver. The human mRNA is expressed in glioma cells, prostate, and uterus. Expression of the human protein has been detected in uterus, basophils, and mast cells. Two transcript variants, one protein coding and the other non-protein coding, have been found for this gene. [provided by RefSeq, Oct 2015]

Applications: Flow Cyt

Recommended Dilutions: Flow Cyt 1/100

Host Species: Rabbit

Isotype: Rabbit/Human Fc chimeric IgG1

Purification: Purified from cell culture supernatant by affinity chromatography

Species Reactivity: Human ENPP3

Constituents: Lyophilized from sterile PBS, pH 7.4. 5 % – 8% trehalose is added as protectants before lyophilization.

Storage & Shipping: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).
