

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

FIBULIN 1 RABBIT MAB

Cat.#: N262222

Product Name: Anti-Fibulin 1 Rabbit Monoclonal Antibody

Synonyms: FBLN; FIBL1

UNIPROT ID: P23142

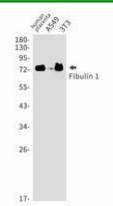

Background: Incorporated into fibronectin-containing matrix fibers. May play a role in cell adhesion and migration along protein fibers within the extracellular matrix (ECM). Could be important for certain developmental processes and contribute to the supramolecular organization of ECM architecture, in particular to those of basement membranes. Has been implicated in a role in cellular transformation and tumor invasion, it appears to be a tumor suppressor. May play a role in haemostasis and thrombosis owing to its ability to bind fibrinogen and incorporate into clots. Could play a significant role in modulating the neurotrophic activities of APP, particularly soluble APP.

Immunogen: Recombinant protein of human Fibulin 1 Applications: WB,IP **Recommended Dilutions:** WB: 1/500-1/1000 IP: 1/20 Host Species: Rabbit **Clonality:** Rabbit Monoclonal Clone ID: R09-9C1 MW: Calculated MW: 77 kDa; Observed MW: 77 kDa Isotype: IgG Purification: Affinity Purified Species Reactivity: Human, Mouse Conjugation: Unconjugated **Modification:** Unmodified **Constituents:** PBS (without Mg2+ and Ca2+), pH 7.3 containing 50% glycerol, 0.5% BSA and 0.02% sodium azide **Research Areas:** Cardiovascular Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

Western blot analysis of Fibulin 1 in Human placenta, A549, 3T3 lysates using Fibulin 1 antibody.
