

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

GROWTH HORMONE RECEPTOR RABBIT MAB

Cat.#: N262303

Product Name: Anti-Growth Hormone Receptor Rabbit Monoclonal

Antibody

Synonyms: GHR; Growth hormone receptor; GH receptor; Somatotropin

receptor

UNIPROT ID: P10912

Background: Receptor for pituitary gland growth hormone involved in regulating postnatal body growth. On ligand binding, couples to the JAK2/STAT5 pathway. The soluble form (GHBP) acts as a reservoir of growth hormone in plasma and may be a modulator/inhibitor of GH signaling. Isoform 2 up-regulates the production of GHBP and acts as a negative inhibitor of GH signaling.

Immunogen: A synthetic peptide of human Growth hormone receptor

Applications: WB,IP

Recommended Dilutions: WB: 1/500-1/1000 IP: 1/20

Host Species: Rabbit

Clonality: Rabbit Monoclonal

Clone ID: R02-6E6

MW: Calculated MW: 72 kDa; Observed MW: 120 kDa

Isotype: IgG

Purification: Affinity Purified

Species Reactivity: Rat

Conjugation: Unconjugated **Modification:** Unmodified

Constituents: PBS (without Mg2+ and Ca2+), pH 7.3 containing 50%

glycerol, 0.5% BSA and 0.02% sodium azide

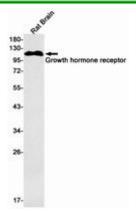

Research Areas: Signal Transduction

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

Western blot analysis of Growth hormone receptor in rat Brain lysates using Growth Hormone Receptor antibody.
