Immunohistochemistry analysis of paraffin embedded Human ovarian cancer tissue using 220663(KLRFI Antibody) at a dilution of 1/25(Cytoplasm or Nucleus).

In comparision with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with the synthetic peptide and then with 220663 (Anti-KLRFI Antibody) at dilution 1/25.

The image on the left is immunohistochemistry of paraffinembedded Human thyroid cancer tissue using 220663(Anti-KLRFI Antibody) at a dilution of 1/25.

In comparision with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with synthetic peptide and then with D261842(Anti-KLRF1 Antibody) at dilution 1/25.
