

MB RABBIT PAB

Cat.#: S217625

Product Name: Anti-MB Rabbit Polyclonal Antibody

Synonyms: PVALB; myoglobin

UNIPROT ID: P02144 (Gene Accession - BC014547)

Background: This gene encodes a member of the globin superfamily and is expressed in skeletal and cardiac muscles. The encoded protein is a haemoprotein contributing to intracellular oxygen storage and transcellular facilitated diffusion of oxygen. At least three alternatively spliced transcript variants encoding the same protein have been reported.

Immunogen: Fusion protein of human MB

Applications: ELISA, WB, IHC

Recommended Dilutions: IHC: 50-200;WB: 500-2000;ELISA: 2000-5000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human, Mouse, Rat

Constituents: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

Research Areas: Cardiovascular

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human colon cancer tissue using 217625(MB Antibody) at a dilution of 1/25(Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human colon cancer tissue is first treated with the fusion protein and then with 217625(Anti-MB Antibody) at dilution 1/25.

The image on the left is immunohistochemistry of paraffin-embedded Human liver cancer tissue using 217625(Anti-MB Antibody) at a dilution of 1/25.

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with fusion protein and then with D222721(Anti-MB Antibody) at dilution 1/25.

Gel: 10%SDS-PAGE, Lysate: 40 µg;
Lane 1-2: Mouse heart tissue, Mouse muscle tissue;
Primary antibody: 217625(MB Antibody) at dilution 1/350;
Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution;
Exposure time: 20 seconds

Product Description

Pioneering GTPase and Oncogene Product Development since 2010
