

PRCP RABBIT PAB

Cat.#: S216743

Product Name: Anti-PRCP Rabbit Polyclonal Antibody

Synonyms: PCP; HUMPCP

UNIPROT ID: P42785 (Gene Accession - BC001500)

Background: The protein encoded by this gene is a lysosomal prolylcarboxypeptidase, which cleaves C-terminal amino acids linked to proline in peptides such as angiotension II, III and des-Arg9-bradykinin. The cleavage occurs at acidic pH, but the enzyme activity is retained with some substrates at neutral pH. This enzyme has been shown to be an activator of the cell matrix-associated prekallikrein. The importance of angiotension II, one of the substrates of this enzyme, in regulating blood pressure and electrolyte balance suggests that this gene may be related to essential hypertension. Alternatively spliced transcript variants encoding distinct isoforms have been observed.

Immunogen: Fusion protein of human PRCP

Applications: ELISA, WB, IHC

Recommended Dilutions: IHC: 25-100;WB: 200-1000;ELISA: 1000-2000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human, Mouse

Constituents: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

Research Areas: Cell Biology, Cardiovascular

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 216743 (PRCP Antibody) at a dilution of 1/15 (Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the fusion protein and then with 216743 (Anti-PRCP Antibody) at dilution 1/15.

The image on the left is immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using 216743 (Anti-PRCP Antibody) at a dilution of 1/15.

In comparison with the IHC on the left, the same paraffin-embedded Human ovarian cancer tissue is first treated with fusion protein and then with D221156 (Anti-PRCP Antibody) at dilution 1/15.

Gel: 10% SDS-PAGE, Lysate: 50 µg;
Lane 1-3: SKOV3 cells, A549 cells, human liver cancer tissue;
Primary antibody: 216743 (PRCP Antibody) at dilution 1/100;
Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution;
Exposure time: 5 minutes

Product Description

Pioneering GTPase and Oncogene Product Development since 2010
