

RABGGTA RABBIT PAB

Cat.#: S218896

Product Name: Anti-RABGGTA Rabbit Polyclonal Antibody

Synonyms: PTAR3

UNIPROT ID: Q92696 (Gene Accession - BC003093)

Background: Catalyzes the transfer of a geranylgeranyl moiety from geranylgeranyl diphosphate to both cysteines of Rab proteins with the C-terminal sequence -XXCC, -XCXC and -CC,xx such as RAB1A, RAB3A, RAB5A and RAB7A.

Immunogen: Fusion protein of human RABGGTA

Applications: ELISA, IHC

Recommended Dilutions: IHC: 50-300; ELISA: 5000-10000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human, Mouse, Rat

Constituents: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

Research Areas: Signal Transduction, Neuroscience

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

Immunohistochemistry analysis of paraffin embedded Human thyroid cancer tissue using 218896(RABGGTA Antibody) at a dilution of 1/50(Nucleus or Cytoplasm).

In comparison with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with the fusion protein and then with 218896(Anti-RABGGTA Antibody) at dilution 1/50.

The image on the left is immunohistochemistry of paraffin-embedded Human tonsil tissue using 218896(Anti-RABGGTA Antibody) at a dilution of 1/50.

In comparison with the IHC on the left, the same paraffin-embedded Human tonsil tissue is first treated with fusion protein and then with D225457(Anti-RABGGTA Antibody) at dilution 1/50.
