

SLC2A2 RABBIT PAB

Cat.#: S219821

Product Name: Anti-SLC2A2 Rabbit Polyclonal Antibody

Synonyms: GLUT2

UNIPROT ID: P11168 (Gene Accession - NP_000331)

Background: This gene encodes an integral plasma membrane glycoprotein of the liver, islet beta cells, intestine, and kidney epithelium. The encoded protein mediates facilitated bidirectional glucose transport. Because of its low affinity for glucose, it has been suggested as a glucose sensor. Mutations in this gene are associated with susceptibility to diseases, including Fanconi-Bickel syndrome and noninsulin-dependent diabetes mellitus (NIDDM). Alternative splicing results in multiple transcript variants of this gene.
