

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

SLTM RABBIT PAB

Cat.#: S220947

Product Name: Anti-SLTM Rabbit Polyclonal Antibody

Synonyms: Met

UNIPROT ID: Q9NWH9 (Gene Accession - NP_079031)

Background: When overexpressed, acts as a general inhibitor of transcription that eventually

leads to apoptosis.

Immunogen: Synthetic peptide of human SLTM

Applications: ELISA, IHC

Recommended Dilutions: IHC: 50-100; ELISA: 5000-10000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG **Purification:** Antigen affinity purification **Species Reactivity:** Human, Mouse

Constituents: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40%

glycerol

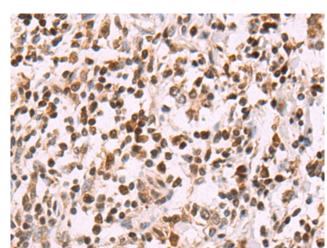

Research Areas: Epigenetics and Nuclear Signaling

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

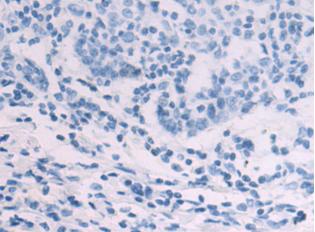

Product Description

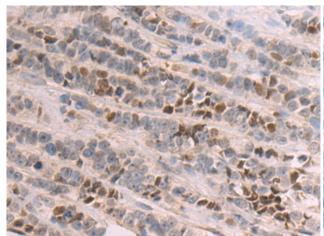

Pioneering GTPase and Oncogene Product Development since 2010

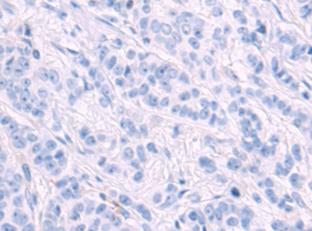

Immunohistochemistry analysis of paraffin embedded Human gastric cancer tissue using 220947(SLTM Antibody) at a dilution of 1/50(Nucleus).

In comparision with the IHC on the left, the same paraffin-embedded Human gastric cancer tissue is first treated with the synthetic peptide and then with 220947(Anti-SLTM . Antibody) at dilution 1/50.

The image on the left is immunohistochemistry of paraffinembedded Human breast cancer tissue using cancer tissue is first treated with synthetic 220947(Anti-SLTM Antibody) at a dilution of 1/50.

In comparision with the IHC on the left, the same paraffin-embedded Human breast peptide and then with D262269(Anti-SLTM Antibody) at dilution 1/50.
