

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

TRAFD1 RABBIT PAB

Cat.#: S216855

Product Name: Anti-TRAFD1 Rabbit Polyclonal Antibody

Synonyms: FLN29

UNIPROT ID: 014545 (Gene Accession - BC003553)

Background: The innate immune system confers host defense against viral and microbial infection, and TRAFDI is a negative feedback regulator that controls excessive immune responses. Negative feedback regulator that controls excessive innate immune responses. Regulates both Toll-like receptor 4 (TLR4) and DDX58/RIGI-like helicases (RLH) pathways. May inhibit the LTR pathway by direct interaction with TRAF6 and attenuation of NF-kappa-B activation.

Immunogen: Fusion protein of human TRAFD1

Applications: ELISA, IHC

Recommended Dilutions: IHC: 25-100; ELISA: 1000-2000

Host Species: Rabbit

Clonality: Rabbit Polyclonal

Isotype: Immunogen-specific rabbit IgG

Purification: Antigen affinity purification

Species Reactivity: Human

Constituents: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol

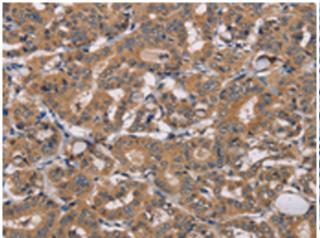

Research Areas: Immunology

Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing

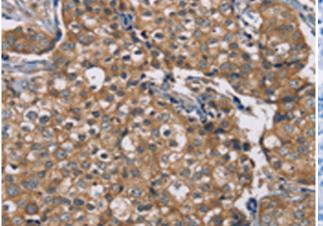

Product Description

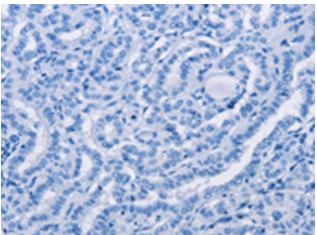

Pioneering GTPase and Oncogene Product Development since 2010

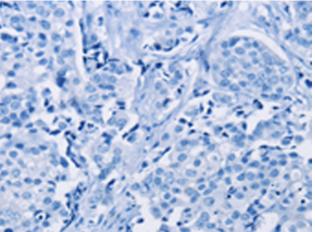

Immunohistochemistry analysis of paraffin embedded Human thyroid cancer tissue using 216855(TRAFD1 Antibody) at a dilution of 1/20(Cytoplasm).

The image on the left is immunohistochemistry of paraffinembedded Human breast cancer tissue using cancer tissue is first treated with fusion 216855(Anti-TRAFD1 Antibody) at a dilution of 1/20.

In comparision with the IHC on the left, the same paraffin-embedded Human thyroid cancer tissue is first treated with the fusion protein and then with 216855(Anti-TRAFD) Antibody) at dilution 1/20.

In comparision with the IHC on the left, the same paraffin-embedded Human breast protein and then with D221364(Anti-TRAFD1 Antibody) at dilution 1/20.
