

## **Product Description**

Pioneering GTPase and Oncogene Product Development since 2010

## **BIOTINYLATED ANTI-GITR (DM79) RABBIT MAB**

Cat.#: 28400

Product Name: Biotinylated Anti-GITR(DM79) Rabbit Monoclonal Antibody

**Synonyms:** AITR; GITR; TNFRSF18; CD357

**Description:** Biotinylated Anti-GITR antibody(DM79) Rabbit Monoclonal

Antibody

**Background:** This gene encodes a member of the TNF-receptor superfamily. The encoded receptor has been shown to have increased expression upon T-cell activation; and it is thought to play a key role in dominant immunological self-tolerance maintained by CD25()CD4() regulatory T cells. Knockout studies in mice also suggest the role of this receptor is in the regulation of CD3-driven T-cell activation and programmed cell death. Three alternatively spliced transcript variants of this gene encoding distinct isoforms have been reported.

**Applications:** ELISA; Flow Cyt

Recommended Dilutions: ELISA 1:5000-10000; Flow Cyt 1:100

**Host Species:** Rabbit **Isotype:** Rabbit IgG

Purification: Purified from cell culture supernatant by affinity

chromatography

Species Reactivity: Human GITR

**Constituents:** Lyophilized from sterile PBS, pH 7.4. 5 % – 8% trehalose is

added as protectants before lyophilization.

**Storage & Shipping:** Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and

store at -80°C (Avoid repeated freezing and thawing).
